

World Health Organization - MDSR Workshop

To identify opportunities to strengthen the MDSR global implementation and the contribution of MDSR to Ending Preventable Maternal Mortality (EPMM) beyond 2015

Specific objectives:

- To provide a forum to discuss and identify the opportunities and challenges facing MDSR implementation post-2015
- To share lessons from the field on selected key topics relevant to sustained MDSR implementation
- To identify mechanisms and activities to strengthen global collaboration in MDSR implementation

Sunday 4th Oct 09:30-17:30

Visit us at our stand, location #640 for more details on the Centre for Maternal and Newborn Health
